PROFESSIONAL SUMMARY

Software Engineer with hands-on production experience building full-stack web applications, native Android mobile apps, and DevOps infrastructure. Engineered custom enterprise SaaS platforms managing live financial compliance, utilized by hundreds of organizations. Proven expertise in integrating on-device AI models and delivering low-latency audio processing solutions optimized for mobile hardware. Adept at taking complete technical ownership across the entire development lifecycle, from system architecture to deployment, and writing clean, resilient code for autonomous, high-impact engineering environments.

EDUCATION

BS Computer Science | 2022- 2026

Lahore Garrison University

CGPA: 3.3 / 4.0

EXPERIENCE

Software Engineer | 07/2023 – 03/2026

Group K (Private Limited) | Lahore, Pak

- Software Engineer for a digital advertising company; owned all frontend, backend, and infrastructure decisions.
- Built and maintained a client-facing website in React and Firebase; handled all deployment, domain management, and hosting configuration independently.
- Developed a custom internal scheduling and management application used daily by a 20-person team for ad scheduling, employee tracking, and project visibility.
- Automated repetitive operational workflows by integrating the internal app with the client website, reducing manual administrative overhead.

President & Co-Founder | 02/2025 – Present

Kun Foundation (Registered NGO) | Lahore, Pak

- Co-founded and lead a registered non-profit with a team of 22 (12 staff, 10 volunteers), directing all organisational strategy, financial allocation, and field operations.
- Deployed approximately PKR 1,000,000 across educational sponsorship and community programmes, directly supporting hundreds of families across Pakistan.
- Sponsor full tuition and ongoing educational expenses for multiple underprivileged students, managing individual cases end-to-end.
- Built public-private partnerships with external organisations to sustain and scale outreach programmes.

Game Developer (Intern) | 09/2024 – 10/2024

The Game Storm Studios | Lahore, Pak

- Built backend architecture and physics systems for a Pygame based application, optimising game loop performance and state management.
- Reduced runtime overhead through targeted game-logic optimisation and profiling.

COURSES & CERTIFICATIONS

Foundational Certification in DevOps (FCDO™)

CareerSprints — 2026

Python for Data Science & Machine Learning

PNY — 2024

Advanced Python Programming & Applications

NAVTTTC — 2024

DevOps & Ansible Automation

Udemy — 2026

SKILLS

Mobile Development

Kotlin, Android SDK, Jetpack Compose

DevOps & Automation

Docker, Ansible, GitHub Actions (CI/CD), Nginx

Web & Full-Stack

React, Node.js, JavaScript, RESTful APIs, Firebase

AI/ML & Computer Vision

Python, MediaPipe, OpenCV, Pandas, DTLN, RNNNoise

FINAL YEAR PROJECT

HearWise (Real-Time Audio Processing App) | 2026

Kotlin, Jetpack Compose, RNNoise, DTLN

- Architected a low-latency real-time DSP pipeline on Android, enabling live audio stream processing directly on mobile hardware.
- Integrated a DTLN (Dual Signal Transformation LSTM Network) alongside RNNoise for on-device, AI-driven background noise suppression without cloud dependency.
- Built a fully reactive Jetpack Compose UI with complete thread isolation, ensuring zero UI-blocking during heavy ML workloads.

PROJECTS

DisPakistan FBR (GovTech & Tax Management SaaS) | 2025

React, Node.js, RESTful APIs

- Production SaaS platform in active daily use by hundreds of companies across Pakistan for FBR-compliant digital invoicing, tax management, and automated financial reporting.
- Built the full stack (React frontend, Node.js/REST backend); integrated live Federal Board of Revenue (FBR) APIs for real-time compliance enforcement.
- Configured CI/CD pipelines with GitHub Actions for automated testing and reliable deployment.

ONLINE365 (Logistics & E-Commerce Prep Platform) | 2026

React, Node.js, MongoDB

- Delivered a full SaaS dashboard for a real e-commerce prep-services client, covering supply chain tracking, real-time inventory management, and order fulfilment workflows.
- Containerised application workloads with Docker; implemented continuous delivery pipelines for smooth production deployment.

Touchless Virtual Mouse (Computer Vision) | 2026

Python, OpenCV, MediaPipe

- Real-time hand-gesture interface using MediaPipe's 3D landmark detection and OpenCV for system-level cursor control without physical input devices.

ACHIEVEMENTS

Management Head | GITS Society | Lahore Garrison University, Lahore

Planned and executed 3 major campus-wide technical events end-to-end.

President | Kun Foundation | Registered NGO, Lahore

Co-founded a youth-led NGO; built a 22-person team and directed strategy to scale educational access for underprivileged youth.

Dual Gold Medalist | Professional Boxing & MMA | Provincial & National Championships

Achieved Gold Medals at both Provincial and National competitive levels in the cruiserweight and heavyweight divisions.

Runner-Up | Excite Cup 2025 | Capital University of Science & Technology (CUST), Islamabad

Secured 2nd place in a highly competitive on-spot programming and algorithmic problem-solving competition.
